Grant of a site free of cost for the construction of a club building in Harihar Town

Sir,

Adverting to your letter No L 4396 dated the 4th November 44 stating that the site behind the Town Hall proposed to be granted for the construction of a club building is quite insufficient for a club, which requires a tennis Court etc,, I have the honour to state that the President who was asked to suggest another suitable site in consultation with the MunicipalCouncil, reports that the matter was discussed by the Council at its meeting held on the 30th November 1944, when it was resolved, that as there was no other suitable site in the town for the construction of a -- building for the Club, the site already selected may be granted as there is already a tennis Court in front of the site and that the space behind the town Hall is not suitable for the lay out of a park There already exists a Park in the triangular bit of plot in front of the town hall and the President therefore recommends the grant of the site in question, as the space which remains over after the grant would be adequate enough for the future -- expansion of the town Hall

In enclosing herein the entire file ending with the letter No V S 1/44-45 dated the 6th December1944 received from the -- President, Town Municipal Council, Harihar, I request that Government

I have inspected various possible sites at Harihar on 25-4-45 and have convinced myself that the site originally elected (behind the Town Hall) is suited for the purpose

I therefore suggest that we may recommend to Government that this site may be given subject to the following conditions

i that the site should be surrounded by a pucca compound wall,

ii that trees should be planted all round along this compound wal

iii that the Club Building may face the Station Square,

iv that only pucca structures are permitted in this site and that the land is to be resumed by Government if it is found used for any other purpose except for the running of the Club
